Available on request

PROFILE

Frontend developer in training at Futuregames (Stockholm), seeking a LIA placement from 4 January to 21 May 2027 to apply React, Next.js and TypeScript skills within a professional development team. Combines hands-on team project experience — including a full multi-page, bilingual website built to a real-world client brief — with 8+ years of leadership, operations and customer-facing experience. Strong communicator, fast learner, and comfortable owning tasks in a fast-paced team environment.

PROJECTS

HSS Scout — Client-Brief Website Project

Team project (4-person group) | Next.js, TypeScript, i18n (Swedish/English)

- Built a full, multi-page bilingual website as part of a Futuregames coursework brief modelled on a real organisation.
- Implemented Swedish/English language support, responsive layouts, and third-party integrations (registration, social media).
- Contributed frontend components and collaborated via Git/GitHub throughout the build, from planning to deployment.

Live demo: hss-scout.vercel.app

Code: github.com/imrankhan0503/hss-project

Saffron Table — Recipe Finder App

Solo project | Next.js, TypeScript, React Context, TheMealDB API

- Responsive recipe app with category browsing, dynamic routing, and recipe detail pages powered by a public API.
- Built user login/session state, favourite recipes and favourite-category selection using React Context.
- Deployed to Vercel with a working demo and documented README.

EXPERIENCE

Shift Manager — Gyllene M:n AB

Oct 2017 – Present | Stockholm, Sweden

- Led daily operations for a team of staff, ensuring adherence to safety, quality and service standards.
- Trained and mentored new employees on efficient workflow practices, improving onboarding speed.
- Built and managed staff schedules, balancing workload across shifts to optimise productivity.

Computer Operator — Pir and Co. Ltd. (Kohat Cement Factory)

Aug 2013 – Jul 2014 | Kohat, Pakistan

- Prepared financial statements and operational reports; developed and monitored budgets.
- Maintained system integrity through balancing, network troubleshooting, and data backup/restore.

Earlier Experience

- Sales Executive, Modern General Trading Co., Dubai, UAE (Jan–Aug 2013) — achieved monthly sales targets, competitor analysis.
- Retail & Distribution, Vectone Sweden (Dec 2015–Feb 2016) — product promotion and customer engagement reporting.
